HISTORY.

The Institution was founded in the year 1848. The Baptists of Eastern North Carolina and Virginia felt the need of establishing a female school possessing all appliances essential to a thorough and liberal education. They accordingly erected a beautiful and commodious brick building four stories high, and furnished it with an elegance and liberality which enabled it at once to take rank with the best schools in the South. This rank it still maintains; and after a successful course of thirty-five years, during which time it has graduated over two hundred young ladies and contributed to the education of a much larger number, it is still the exclusive and unincumbered property of the Baptist denomination. It is the purpose of its friends that it shall be kept fully up with the increasing demands of the age.

LOCATION.

The site is eminently appropriate. Embracing a tract of twenty-eight acres adjacent to the town, it secures the important advantages of privacy, and affords ample room for exercise within the inclosure.

A fine lawn of six acres immediately in front of the main building, laid out in walks and ornamented with shrubbery and flowers, adds greatly to the attractiveness of the place, and affords at the same time inducements to out-door exercise and botanical pursuits.

HEALTH.

This location was selected in preference to several others in some respects more eligible, on account of its celebrity for health; and the history of the school for more than thirty years fully sustains this reputation. The annual health record of the school since its foundation shows an average in medical bills of 25 cents per pupil—a record that challenges comparison with that of any similar school in the United States. No location, however, can insure permanent health to those who disregard the means of promoting it. As culture of mind without health of body would be comparatively valueless, special pains are taken to preserve the health and promote the physical development of pupils by furnishing a plentiful supply of nutri-

cious and well cooked food, by insuring sufficient time for sleep, and by requiring necessary exercise. All boarding pupils are required to exercise daily in callisthenics, under the supervision of a judicious and well qualified teacher. If, however, any parent really wishes his daughter excused from this important part of school discipline, his, wishes are respected, if made known to the President at the time the pupil is entered.

GOVERNMENT.

The government is mild and parental. It is regarded as of primary importance that pupils be induced to act from principle. Hence, appeals to reason and conscience are mainly relied on to enforce rules and stimulate diligence.

Pupils from abroad are not permitted to make visits or receive them, except from relations or friends from their own neighborhoods. Boarding pupils never leave the Institute premises, except when attended by an officer of the Institution or a near relative.

No young lady is permitted to open an account with a merchant, without permission from her parent or guardian.

Costly dressing and the useless expenditure of money are discouraged. The clothing of young ladies must be legibly marked.

Every pupil, on application for admission, is examined on her previous acquirements, and is placed in such studies as the Board of Instruction deem best for her, due regard being had for the special wishes of her parent. Ornamental branches are taken only with the explicit consent of parent or guardian.

When studies have been assigned to a pupil, no change is allowed except for sufficient reason.

It is very important that pupils enter at the beginning of the session, as classes are then formed and new studies commenced. An absence of a few weeks frequently renders it impossible to regain position in a class. To encourage prompt attendance, no deduction is made for loss of time while this position is retained.

New pupils are received at any time when we have room for their accommodation, and, after the first two weeks of the session, are charged only from time of entering.

SESSIONS AND VACATION.

The scholastic year is divided into two terms, thus:

Fall Term, beginning first Wednesday in October and ending the 14th of February following.

Spring Term, beginning the 15th of February and ending with the Annual Commencement, last Wednesday in June.

Vacation extends from last Wednesday in June to first Wednesday in October. The length of this vacation renders all others unnecessary, and hence there is only one day's suspension at Christmas.

APPARATUS.

The institution is furnished with a very complete and superior set of Philosophical, Chemical, and Astronomical Apparatus for the practical illustration of the principles of those sciences.

LIBRARY AND CABINET.

The Institute possesses a small, select Library and a Cabinet of Natural and Artificial curiosities.

RELIGIOUS INSTRUCTION.

The proper development and direction of the moral faculties are of paramount importance in the training of youth. Hence, the founders of the Institution incorporated into its system of instruction and discipline the Christian religion as a prominent and permanent feature; but the Faculty use no argument or persuasion to bias the minds or influence the choice of pupils in religious matters. All pupils are required to attend morning and evening prayers in the Chapel, and public worship on Sunday.

REMARKS ON COURSE OF STUDY.

1. The Junior and Senior classes have Spelling and Elocution, and all other classes Spelling and Mental Arithmetic, three times a week.

2. Instruction in the Preparatory Department is given by the regular teachers in the Collegiate course, thus securing for all classes the same grade of instruction.

3. The programme is arranged for pupils to have four recitations a day in either course, thus giving each full work, but not overtaxing the ability of any. It is advisable, however, for pupils pursuing both music and art to have only three literary studies.

4. Written examinations are held at the close of each quarter; and in making out reports, the daily and examination grades count each one-half. When a grade falls belows two-thirds of the maximum, the pupil is required to make up the deficiency or review before she can graduate. Merely going over a course does not secure a diploma. If, however, a pupil's grade is less than two-thirds, she may complete

the course with her class without graduation.

5. While the course of instruction in Latin, Mathematics, Natural Science, and Moral Philosophy, is not so extensive as in our male colleges, the standard of scholarship is designed to be quite as high. In French and English Literature, the course is as extensive and thorough, and the standard of scholarship as high, as in any of our colleges. Changes are made only after careful consideration. To stimulate pupils to greater efforts, it is proposed to arrange for an exchange of examination papers with other institutions of high grade of scholarship.

6. Young ladies desiring to do so may take German instead of French.

REPORTS.

At the expiration of each quarter, printed reports are addressed to the parent or guardian, showing the merits and demerits of the pupil as exhibited in her general deportment, attention to studies, and standing in her classes. The object of these reports is to incite to constant diligence and faithfulness in the discharge of every duty.

GOLDEN REPORTS.

When a pupil is absent from no recitation, is perfect in deportment, and makes an average of nine-tenths on her studies, she receives a golden report.

If a pupil is kept from recitations by sickness, but is perfect in deportment, and makes an average of nine-tenths on her examinations, she receives a golden report.

DEPARTMENT OF MUSIC.

Music, instrumental and vocal, is taught by the best teachers that can be procured. For several years the department has been under the direction of Mrs. S. J. MYRICK, a refined and cultivated lady, who has taken unusual pains, under the tuition of the best masters, to qualify herself for teaching; and having taught many years in the Institution, she is well known to its patrons as the most popular and successful teacher ever connected with the school. Under her direction the department has acquired unusual popularity and efficiency. Her associates are also ladies of superior qualifications.

DEPARTMENT OF FINE ARTS.

This department is under the direction of a lady of experience and ability. It is justly popular, and presents superior advantages to those who wish to cultivate their taste for the Fine Arts.

DOMESTIC DEPARTMENT.

This department receives the personal attention of the President and his lady. The table is plentifully supplied with wholsome provisions, served under the supervision of a lady of experience, who thoroughly understands her business.

Each pupil should be provided with umbrella, water-proof, and over-shoes.

The daughters of Ministers who live by the ministry, are admitted to all the advantages of the Literary Department free of charge for Tuition.

The Institution has twelve scholarships, held by individuals, which authorize the admission of as many indigent young ladies free of charge for Literary Tuition.

REMARKS.

1. To those parents who seek mainly opportunities for successful study in sending their daughters from home, this Institution offers some important advantages.

Located in a quiet village two hours' ride from the nearest railroad station, it is rarely visited by circuses, minstrel troupes, traveling lecturers, and other profitless annoyances, which are a growing nuisance on public highways and at their converging centres.

3. We are glad to have parents and guardians visit the school at any time and learn, from the teachers and their own observations in the recitation room, how their daughters and wards are progressing.

4. The school consists almost entirely of boarding pupils. Classes are not, therefore, retarded by absence on account of inclement weather, as is necessarily the case where there is a large admixture of day pupils.

 Parents should write to the President himself, and not to their daughters, in regard to health, desired changes in studies, permission to visit, or other special privileges. The reasons for this requirement are obvious.

6. It is earnestly hoped that parents will not allow their daughters to leave the Institute during Christmas. Besides the loss of time, serious damage to health frequently results from leaving a heated building at this season of the year.

7. There is no extra charge for languages in regular course, or for calisthenics. Pupils having two studies in the collegiate course are charged the tuition of that department.

8. When desirable, we endeavor to secure situations for young ladies who have been pupils in the Institution, and whose attainments and deportment are satisfactory.

Letters for young ladies should be addressed:

Miss, C. B. F. Institute,

Murfreesboro, N. C.
